RESIDENTIAL WELL PERMIT APPLICATION INSTRUCTIONS

Applications must be completed legibly, in BLACK INK. ALL ITEMS in the application must be completed. Incomplete applications may be returned to the applicant for more information. Applications are evaluated in chronological order. Please allow approximately six weeks for processing. This form may be reproduced by photocopying or computer generation. Reproductions must retain margins and print quality of the original form.

FEES: This application must be submitted with the appropriate filing fee. The filing fee for applications is **\$440**. Exceptions are as follows: 1) An application to replace or deepen an existing permitted well in the same source (aquifer) is **\$200**. 2) Applications to register an existing well (use Form GWS-12), and replace or deepen the well (use Form GWS-44) into the same aquifer is **\$440 if submitted together. Fees are nonrefundable.** Acceptable forms of payment are check or money order, payable to the Colorado Division of Water Resources, and Visa or MasterCard (card number and expiration date must be provided on a separate attachment).

USES: This form (GWS-44) is to be used when applying for a permit for the following types of uses:

- A. Ordinary household use inside one single family residence (NO outside water use allowed):** Generally, this is all that can be approved on parcels less than 35 acres.
- B. Ordinary household use in 1 to 3 single-family dwellings, irrigation of up to one acre of home garden and lawn, and watering of domestic animals:** Generally, permits can be approved on parcels of land of 35 or more acres, or in areas inside the Designated Basins, the Denver Basin, limited areas on the Western Slope, and for subdivisions under a court-approved plan for augmentation that allow outside uses.
- C. Livestock watering on farm, ranch, range, or pasture** (on parcels of 35 or more acres).

DO NOT use this form for the registration of an existing unpermitted well (use Form GWS-12).

ITEM INSTRUCTIONS: (numbers correspond with those on the front of this form)

- 1. The applicant is the entity for whom the permit is to be issued. Since the well owner is ultimately responsible for the use of the well, their name should be in this area. The mailing address is where the applicant currently receives mail.
- 2. Check all boxes that apply.
- 3. Complete all boxes that apply.
- 4. The county, ¼ of the ¼ section designation, section #, township, range, principal meridian, and distances from section lines for the proposed well must be provided. (An option to providing distances from section lines and the ¼ of the ¼ section designation, is to provide an accurate GPS location in UTM format. The required GPS unit settings must be as indicated on this form.)
- 5. Complete Items 5A through 5E (5E is optional). If you answered NO to Item 5C, please state in an attachment who the landowner is. If you are under a contract to purchase the subject property, please state this as well. If the parcel is inside the Denver Basin, the application must be in the name of, and signed by, the current landowner.
- 6. See above comments under USES to determine those uses for which you may qualify, then check the applicable box or boxes.
- 7. The **maximum pumping rate** is limited to 15 gpm for most residential type well permits. The **annual amount of water to be withdrawn** is a volume measured in acre-feet. One acre foot equals 325,851 gallons. For ordinary household use inside one single-family dwelling and no outside use, the annual amount will be about 1/3 acre-foot. For ordinary household use in three single-family dwellings, one acre of home garden/lawn irrigation, and watering of domestic animals, the annual amount will be about 3 acre-feet. For 100 head of livestock, the annual amount will be about 1.35 acre-feet. Please indicate the estimated **depth** of the proposed well. The proposed **aquifer** for the well must be indicated if the well is to be located within the Denver Basin (the approximate area of the Denver Basin extends south from Greeley to an area east of Colorado Springs and from Golden east to Limon), the San Luis Valley, the Southern High Plains basin in Baca or Prowers Counties, or in areas where it is believed the well will penetrate a confining layer. Aquifer information should be provided if known, for well locations outside of these areas.
- 8. The issuance of well permits may depend on the availability of another source of water, pursuant to CRS 37-92-602(6). (Statutes can be accessed through our web site.)
- 9. Check the applicable box, and complete or attach any additional information as requested in this item.
- 10. Wells must be constructed by a Colorado licensed well driller, or under the "private driller" provision as defined in CRS 37-91-102(12).
- 11. An ORIGINAL signature must be on the application. The individual signing the application must be the applicant or an officer of the corporation/company/agency identified as the applicant. An authorized agent may sign the application, if a letter signed by the applicant is submitted with the application authorizing that agent to sign on the applicant's behalf.

IF YOU HAVE ANY QUESTIONS regarding any item on the application form, please call the Division of Water Resources Ground Water Information Desk (303-866-3587), or the nearest Division of Water Resources Field Office located in Greeley (970-352-8712), Pueblo (719-542-3368), Alamosa (719-589-6683), Montrose (970-249-6622), Glenwood Springs (970-945-5665), Steamboat Springs (970-879-0272), or Durango (970-247-1845), or refer to our web site at <http://www.water.state.co.us> for general information, additional forms, and access to state rules or statutes.
